#### A delivery excellence approach marked by quality and speed.

With proven methodologies, process and tools and skilled Microsoft resources we accelerate the delivery of solutions to clients with the objective of reduced risk. We serve our clients through multiple delivery options—onshore, offshore, near-shore or any combination thereof—to drive quality solutions, greater efficiencies and cost savings

**A proven record of success.** Drawing on our extensive experience across wide range of industries and business functions, we help clients reduce the risks associated with designing and implementing mission-critical solutions. We have worked on several large business and public service projects including UNICEF, UNDP, Ministry of Finance, Ministry of Health, Direct Channel Holdings, SimbaNET (T) Ltd., Exim Bank, to name a few.

**A deep understanding of technology.** We understand the issues that keep executives up at night. We offer practical, insightful solutions that allow you to successfully address your most pressing challenges such as:

**How can I use technology to gain efficiency and competitive advantage?** We work with you to create data applications and reports for measuring and achieving organizational goals and improving performance. We then work with you to bring these applications to life with proven delivery methods, deep technical skills and preconfigured, tested solutions designed to minimize risk.

**How can I use technology to improve revenue and profitability?** We deliver scalable, cost-effective Microsoft solutions intended to allow you to position technology as an engine for financial and operating performance improvements.

**Better, Faster and Cheaper - How?** Our teams deploy solutions quickly, our goal is to deliver the right combination of business and technology solutions to help you become—and stay—more nimble and more competitive.
